

THE NEWLIGHT MIRROR

The newlight mirror in oak | raw

DESCRIPTION

An elegant large-scale oak mirror shown in a raw oak finish. The pictured dimensions are 2400mm high x 1000mm wide. The refined frame is made possible with the support of an elegant solid oak panelled back. The newlight mirror plate is hand-silvered and lightly foxed giving a soft and flattering reflection. A low iron glass plate removes the green tint seen in standard mirrors, so colour and clarity are more accurate and aesthetically pleasing. Where budgets are tight, ply backboards and standard mirror plates are available. Every newlight mirror is made to measure and is finished in our Stamford workshop in any of our oak finishes.

FINISHES

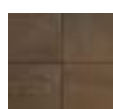

The suggested finishes for the newlight mirror are below. To see all options visit our [finish library](#). Our handmade samples are available at £25 + vat each including delivery.

oak | raw

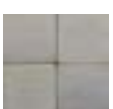

oak | fumed

oak | dark fumed

oak | worn ebony

oak | double whitewash
