

THE SAWBUCK TABLE

The sawbuck table in oak | scrubbed (triple trestle)

DESCRIPTION

A solid oak trestle table inspired by the honest construction of a 19th century American sawbuck. Made to measure to ensure your sawbuck table fits your space perfectly. The simple vernacular of the sawbuck table scales up well and looks great with heavy trestles and an impressive thick top. Our sawbuck table is typically made in solid oak. Whitewash and greywash finishes give the table a more relaxed and time worn look, and our darker finishes can feel modern or historic depending on their surroundings.
